PROPOSED AMENDMENT

Common Area Water Usage

Amendment to common-area operating policy | Proposed for board vote

The Gardens of Oak Hollow Homeowners Association

Amendment No.: 202611-03

1. Water usage limit

Water usage on HOA common areas shall be limited to 1,500 gallons per water meter during each SAWS billing cycle. The limit applies separately to each meter serving a common area and resets at the beginning of that meter's next billing cycle.

2. Monitoring and enforcement

The HOA shall review reported San Antonio Water System (SAWS) water usage for each common-area water meter at intervals of no fewer than 7 and no more than 14 days. Reviews shall use the cumulative reported usage for the current billing cycle.

3. Shutoff and restoration

When a review shows that usage for a meter has reached or exceeded 1,500 gallons within a billing cycle, the HOA shall turn off water service to the common area served by that meter. Water service shall remain off for the remainder of that billing cycle and may be restored at the beginning of the next billing cycle.

4. Administration

The HOA shall maintain a record for each meter showing the billing-cycle dates, review dates, reported usage, and any shutoff and restoration dates.

5. Approval, effective date, and publication

This amendment to common-area operating policy is submitted for a board vote and is not effective unless approved. Upon approval, the HOA shall record the effective date below and upload the approved amendment to the amendments section of the HOA website.

Vote date: 9 Nov 2026 Effective date, if approved: 9 Nov 2026
